POPE FRANCIS:

The Foundation of Humanity! Not only would I say that the family is important for the evangelization of the ...world.. The family is important and it is necessary for the survival of humanity. Without the family, the cultural survival of the human race would be at risk. The family, whether we like it or not, is the foundation!

Hope assures us that...divine mercy would not abandon us, but would come out to meet us and restore us to the dignity of a child of god, provided we offered no resistance to His mercy. Hope always has this certainty about itself, even in a soul which has turned away from God by mortal sin and has lost the virtue of love together with sanctifying grace. However, faith and hope are not lost by any mortal sin, but only by such sins as are opposed to...the revealed truths and to confidence in God's mercy.
